

**Registration number:** 218001304

**Project name:** One Mining Service

**Description:** One mining service is a project that is build to make more easier and faster mining services, it will fall in all fields and it will be used by different type of users such as Government,Company,Individuals. One Mining Service will contain eight(8) tabs such as Home,Registration,Trade,New project,Careers,FAQS,Log in,About us. Let start on Home tab, it will contain all events about mining and latest events of mining and all other assential information about One Mining Service. Second tab is Registration where all companies will be registered to make more easier the follow up in the companies like what they actual do, if they paid tax or not,etc... .Third tab is Trade, this will facilitate the buyers and sellers to carry out they businesses, for example the seller can show what she/he want to sell and what kind of minerals he/she has then the buyer can deals with the seller. Fourth tab is new project, this will facilitate the Companies which need to start new project to extract minerals it will help you to access the map so that you can find the free ground and occupied ground. Fiveth tab is Careers, This will help people to find works on the other hand the company to find workers, it will facilitate the recruitments. Sixth tab is FAQS(Frequently Ask Questions), This will allow people to ask they questions or give the ideas about the system of One Mining Service. Seventh tab is Log in, This tab will help the Administrators to access all control and follow up all businesses. The last tab is About us, this will show all information about One Mining Service, the mission and the vision.
